Rex** represented and advised a client in restructuring the client’s business to enable the client to sell a majority interest in the business to a private equity firm, while retaining a significant interest in the business going forward. One of the considerations in structuring this multi-million dollar transaction was the desire to structure it in a tax advantageous manner with respect to the rollover equity and the equity associated with his senior management agreement. **Michael Hackman** assisted with the various tax issues which arose throughout the transaction, while **Sue M. Bendavid** assisted in properly transitioning the employees to the new entity, and **Keith T. Zimmet** assisted with the real estate issues.
